ABOUT ME

AI-focused developer building real-world solutions using Prompt Engineering, AI tools, and modern web technologies. Developed multiple AI-powered applications across domains including legal tech, real estate, healthcare, and travel. Currently building **Law Saathi AI (Nyaya AI)**, an AI-powered legal assistant designed to simplify legal understanding for everyday users. Focused on solving practical problems through AI, automation, and intuitive user experiences.

PROJECTS

Law Saathi AI (Nyaya AI) (2026 - PRESENT)

Tools Used: Prompt Engineering, Firebase (Firestore), Authentication, AI Tools

Description: Developed an AI-powered legal assistant platform that simplifies complex legal concepts for users. Implemented features like AI chatbot for legal queries, document analysis (PDF/Image) with risk detection, and “Know Your Rights” guidance system to provide real-world legal assistance.

Food Ordering Website (Final year Project) (2025)

Tools Used: HTML, CSS, Bootstrap, PHP, MySQL.

Description: Developed a responsive food ordering platform with user & admin panels, product categories, and wallet integration ensuring a smooth user experience.

AI POWERED APPLICATIONS

- **AI Real Estate Platform** - AI-powered property search and recommendations
- **Prescription Saathi AI** - Prescription analysis with medicine guidance chatbot
- **AI Travel Recognition** - Detects places from images using AI
- **AI Travel Planner** - Generates smart travel itineraries using AI

CERTIFICATIONS

- Cloud Computing (2025)
- Introduction to SQL (2025)
- Power of Chatgpt (2025)
- UI/UX Design With Figma (2025)
- Prompt Engineering for chatgpt (2024)
- Video Editing Certification (2022)

EDUCATION

Master of Computer Applications (MCA)

Parul University (2025 – Present)

Bachelor of Computer Applications (BCA) 86%

Veer Narmad South Gujarat University (2022 – 2025)

Higher Secondary (12th) – 86.53%

Udhna Academy School (2021 – 2022)

Secondary (10th) – 69%

R.N. Naik High School (2019 – 2020)

SKILLS

- Generative AI & Automation Tools (ChatGPT, Google AI Studio, n8n)
- Prompt Engineering
- AI Chatbot Development
- Generative AI Tools
- Problem Solving, Logical Thinking
- AI-based UI/UX Design
- n8n (Workflow Automation)
- PHP, Python
